Re: Campbellton Road Widening Project, Phase II  
FC-7237-00

Please find attached the proposal from Williams Russell & Johnson, Inc. to provide professional engineering services during construction of Phase II for the Campbellton Road Widening Project.

Based on assessments for this project, there is need for an on-site full time inspector for the construction and closeout stages for a sixteen (16) month period. This phase II project also includes construction assistance for two (2) water main relocations that were not part of Phase I.

Therefore, the Department of Public Works has determined that it is in the best interest of the City to accept this proposal in an amount not to exceed Three Hundred Eighteen Thousand Nine Hundred Ninety Dollars and No Cents (\$318,990.00).

If you have any questions or if you require additional information, I may be reached at extension 6526.

Re: **CAMPBELLTON ROAD WIDENING, PHASE II.**  
- WRJ Proposal for Construction Support Services.

We have reviewed the referenced proposal for construction support services on Campbellton Road Widening, Phase II. The proposed level of personnel support by Williams Russell & Johnson, Inc. is in line with our current needs, especially now that the program management team for Roads and Bridges program has departed. Please expedite the processing of the proposal for contract amendment, since construction work has commenced on the project.

The proposed dollar amount of \$315,990 is satisfactory.

Please give me a call if you have any questions.

RE: Campbellton Road Widening  
Phase II, FC-7237-00

Dear Mr. Zekavati:

Per the request of Mr. Ladun Esan, we are pleased to present the following fee proposal for professional construction assistance services for the above referenced project.

Based on our assessment of the needs of the project, and, on our experience during Phase I, we see a need for an on-site, full-time inspector for a time of construction and close-out of 16 months. We also see the need for a project engineer for half of that time. Phase II services also include construction assistance for 2 water main relocations that were not a part of Phase I. In addition, we have included reimbursable expenses.

Our proposal is as follows:

<u>Employee Class</u>	<u>Hours</u>	<u>Billing Rate</u>	<u>Total</u>
Principal	68	\$ 130.00	\$ 8,840
Project Engineer	1,300	\$ 99.50	129,350
Inspector	2,600	\$ 67.00	<u>174,200</u>
	Sub-Total		\$ 312,390
	Reimbursable Expenses		<u>3,600</u>
	<b>TOTAL</b>		<b>\$ 315,990</b>

Please review the above fee proposal. Upon approval, an amendment to our contract may be made and submitted for Council approval.

Thank you for allowing us to submit this proposal. If you have any questions, please call either Phil Keener at (404) 853-6887 or myself at (404) 853-6888.

Yours truly,

WILLIAMS-RUSSELL AND JOHNSON, INC.
